## **Outreach Programme on Higher Education and Research**

The main objective of the program is to bring together the academicians, researchers and students to provide a common platform for sharing their knowledge in the recent trends on the Physical Science and Mathematics. It also opens up the avenues by bringing the recent researchers for industrial applications for the societal development and human well-being. The invited lectures will be delivered by eminent personalities from academic and research institutions that are pursuing research in advanced fields of Physics, Chemistry and Mathematics. This interaction program with scientists is aimed at enabling the college students to interact with the faculty of IISER, Thiruvananthapuram with a view to bridge a platform for their higher education in future.
