Research Ethics Committee

The Research Ethics Committee (REC) is a member body of the Crossian Centre for Research and Development (CCRD), comprising all the approved Research Guides. It plays a vital role in upholding the ethical integrity of research activities within the institution. Its primary duties include maintaining ethical standards and ensuring adherence to guidelines for research involving human subjects, animal experiments or sensitive data. The committee promotes research integrity and the responsible conduct of research, ensuring that scholars follow university guidelines related to participant protection, confidentiality and informed consent. In addition, the REC maintains the orderliness of scholars and monitors their research activities. It also addresses grievances raised by researchers or participants, holding periodic discussions to resolve challenges faced by research guides and scholars, and appeals to the university when necessary.
