

Holy Cross College (Autonomous)
Nationally Re-Accredited with A+ by NAAC (CGPA 3.35-IV Cycle)
Nagercoil-629004, Kanyakumari District, Tamil Nadu, India.

National Innovation and Startup policy for the Institution

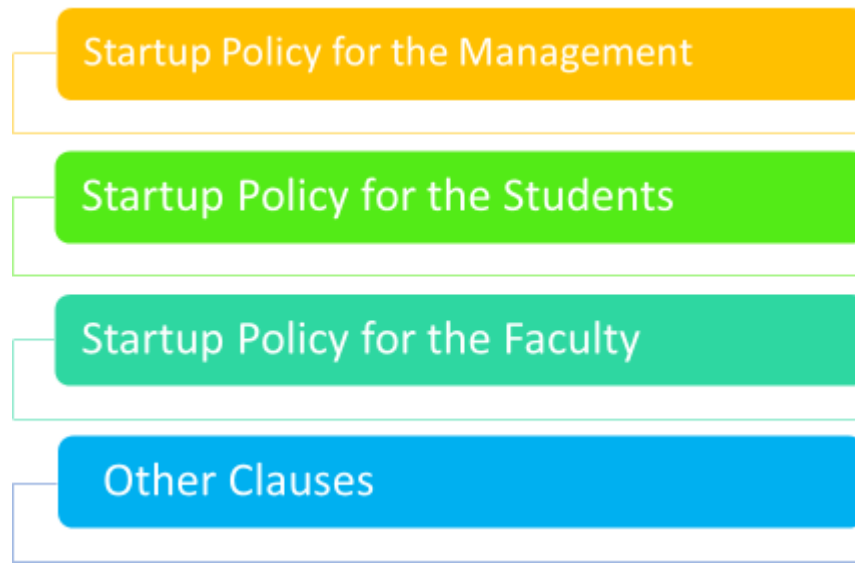

Vision

The College aims at promoting the culture of Entrepreneurship, Innovation and Research to facilitate employability and financial empowerment among students.

Short term objectives- To create awareness among the faculty, supportive staff and students with regard to innovations and entrepreneurship. Preparing Business plan for every Startup and registration of Holy Cross incubation Centre

Medium term objectives – To set up at least 10 pre- incubations, set up an incubation centers which will identify potential entrepreneurs, unlock their potential, improve creativity, orient them on innovation, provide support on market study, technical skills, knowledge on finance and provide handholding and mentoring support. Commercialization of products will be a focus area.

Long term objectives – Well established pre incubation, incubation and startup by all the departments and going for commercialization. Promote unique brands and take care of marketing risks, technology risks, financial risks with the help of other institutions like industry associations. Thus, getting ranks of ARIIA, NIRF, NACC and becoming one of the reputed institutions of the Country

Startup policy for the Management

- ❖ The campus provides an entrepreneurial eco system for the startup of any venture desired by the students and faculty without hierarchical barriers.
- ❖ The institution grants liberty to all subcommittees of Institutions Innovation Council, to formulate individual policy statements, based on their Mission and to strengthen their activities for promoting innovation and entrepreneurial culture inside and outside the campus, for both faculty and students.
- ❖ The institution motivates every department to become innovator and entrepreneur by starting new ventures irrespective of their disciplines. It is mandatory for every department to start pre-incubation, incubation and startup.
- ❖ The institution carefully selects the motivated, committed and innovative teachers to govern, monitor and involve in the IIC with 100% flexibility to design and implement the startup ecosystem in the campus.
- ❖ The institution supports financially to start pre-incubation, incubation and startup to the tune of 1% of its total income annually. Also guide them in getting institutional funding support.

- ❖ The equity shared by the startup center to the institution would be 5% of the total taxable income of every year. Similarly, the revenue sharing ratio between the management and students / staffs would be 70:30 when the patent/brand/trade mark becomes commercialized.
- ❖ The institution provides infrastructure facility for every startup. The square feet of every startup are determined by both the mentor and NISP coordinator.
- ❖ The institution appreciates and approves the ideas of the students and staff by providing infrastructure facility to them in order to start their venture round the clock.
- ❖ The institution offers a course on entrepreneurial development, in its curriculum, to all students in the form of Core/ Electives/Skill-Based Course/ Certificate courses/ Value added Courses, which is mandatory to all the U.G students. If P.G students wish to join, they can choose the same as Self-Learning Course.
- ❖ The institution periodically organizes various workshops, seminars and conferences based on Innovation and Entrepreneurial development. It is mandatory for each department to organize two programmes per year based on innovation and entrepreneurship in their respective field.
- ❖ The institution accommodates outsiders and appoints employees to promote the growth of Startups.
- ❖ As a statutory body, the institution appoints an expert committee, evaluation committee, monitoring committee and resource mobilization team for the promotion of startup ecosystem for a period of 3years. But it is renewable twice.
- ❖ The institution abides by the Memorandum and Articles of Association, once startup is formed.
- ❖ The Institution extends this startup facility to alumni of the institution as well as outsiders.
- ❖ The institution enters into collaboration, linkages and networking for the considered startup. There can also be cross departmental linkages so as to facilitate maximum utilization of internal resources and knowledge.
- ❖ In addition to teaching, the institution assesses the startup-related activities, R&D projects, industrial consultancy services as well as managerial and administrative activities of faculty, while evaluating their annual performance. Every faculty is encouraged to mentor at least one startup.

- ❖ The institution recognizes the faculty, non-teaching staff and students whose ideas/ models are commercialized and gives 'Innovation and Entrepreneurship Awards' to the best achievers' from the campus annually and confers gold medal or an equivalent reward during the convocation ceremony.
- ❖ Any startup or patent should be registered in the name of the institution and not in the name of students or faculty or non-teaching staff.
- ❖ The institution motivates the faculty to write projects on innovation and entrepreneurship to achieve financial stability in their own startups. The institute also appoints a team of competent faculty to write projects besides the department faculty.
- ❖ The Institution will have collaboration with other Institutions like Indian Institute of Food Processing Technology, Fisheries College, Indian Institute of Technology, Confederation of Indian Industries, Kanyakumari Small Industries association etc.

Start-up Policy for Students

- ❖ The IIC of our college assesses the students with a set of personal assessment questions to measure the entrepreneurial mindset regarding skills and talents for innovation and entrepreneurship.
- ❖ Students can earn 2 credits (Per prototype/model) for working on Innovative prototypes/business models.
- ❖ Student innovators/entrepreneurs may be allowed to opt for startups in place of mini projects/major projects, seminars, summer trainings etc.
- ❖ The budding innovator and entrepreneur can be given Rs.10,000/- as seed money to start a venture inside the campus as well as for filing their patents.
- ❖ The minimum attendance for the students who are involved in startups is 60% and they shall claim the same, in the beginning of the academic year while starting their venture as pre incubation, incubation or startup. Such students shall be allowed to attend their examination.
- ❖ The students involved in startups can use the College Hostel address for filing the patents or business registration purposes (according to their preference).
- ❖ The revenue goes to the students to the tune of 95% of the taxable total turnover.

- ❖ The campus is open to students round the clock (24x7). The safety and security of the students are given high priority. If any student involved in startups is unable to return home and requires accommodation, she shall be allowed to stay overnight in the hostel.
- ❖ The students have to be accountable and transparent to the mentor appointed for startup.
- ❖ The students engaged in startups can be exempted from membership in other Clubs and Committees and special credit of 5 can be awarded to them during the period of pre incubation, incubation and startup.
- ❖ If a student wishes to continue a startup for a year or 6 months, the students can be given break-up from her studies and can rejoin in the department to continue her study, after the required period.

Start-up Policy for Faculty

- Faculty are given freedom to plan and go ahead with the approval of the Head of the institution and NISP coordinator.
- Faculty are allowed to begin Startups based on the technology developed in the research lab of the institution or have developed somewhere else having ownership on IP based on technology.
- The faculty should give employment opportunities to their students in their startup and share nominal rent to the management for the place of utilization.
- Faculty and Support staff are encouraged to do courses/trainings/ Certificates on innovations, entrepreneurship and IPR

The role of faculty while teaching could be as owner/founder/co- founder/Director-promoter/adviser/mentor/consultant but cannot take role of an employee as CEO or other managerial role in his/her startup. He/she cannot draw salary from the startup or accept gifts from their own startup. He/she can take share on profit and dividend if any, from the startup only as the owner/shareholder.

- Faculty must not involve research staff or other staff engaged in academic projects (eg..DST, major projects) of the institution in activities related to the startup
- Faculty must clearly separate and distinguish on-going research at the institute from the work conducted at the startup/company.
- In case faculty/staff is drawing salary from the institution, the stake/equity of the institution on the startup should be limited to 20% of total share of faculty/staff or 9.5% of total stake whichever is minimum.
- There will be no restriction on the shares that staff and faculty can take, provided they do not

spend more than 20% of office time on the startup in advisory or consultant role and do not compromise with their existing academic and administrative work or duties.

- In case of faculty startup, if the faculty involves in startup and her presence is required beyond 20 % of working time, she is granted 1 year of sabbatical leave without pay or any leave as prescribed by the government.
 - An incentive of Rs.10,000/- is awarded to the mentor whose startup earns more than 500000/- per year.
 - The staff has to follow the code of conduct and behave ethically as regards pre- incubation, incubation and startup ventures.
 - The faculty mentor has to give due credit to the students who come up with new ideas and publicize it as the idea of the students.
- The mentor can be exempted from other Clubs and Committees of the college.
