

IQAC Action Plan (2026–2027)

Events	Objective
Organising Student Induction Programme for freshers.	To orient new students to the academic environment, thereby enhancing their transition into higher education.
Syllabus Revision for UG and PG Programmes based on NCeF guidelines.	To align the curriculum with specific learning outcomes and multi-disciplinary flexibility
Institutional expansion of the Indian Knowledge System (IKS) Centre and embedded courses across disciplines.	To preserve, promote, and integrate traditional Indian knowledge and practices into contemporary education, research, and cultural activities.
Encourage faculty to complete Ph.D. and obtain recognized research guidship.	To promote academic advancement, research excellence, and strengthen the institutional research ecosystem by supervising more research scholars.
Encourage Faculty to participate in Faculty exchange programmes	To enhance faculty competence, academic collaboration, and knowledge sharing through participation in faculty exchange programmes.
Orientation to the junior faculty on Professional Ethics and institutional retention policies.	To equip new faculty members with an understanding of institutional ethical standards.
Capacity Building programmes for Non-teaching Staff.	To enhance their technical skills, knowledge and competencies for smooth digital administration.
Self-appraisal for Faculty	To encourage reflective teaching practices, identify professional development needs, and enhance academic excellence and accountability
Encourage Faculty to apply for various awards outside institution	To motivate faculty to attain professional recognition and excellence by applying for awards offered by external organizations and agencies.
Enhancement of Learning Management System (LMS) with advanced integrations.	To improve the delivery and management of educational content, streamline communication, and future-proof hybrid learning environments.
Strengthening and documenting department e-library and e-resources.	To improve access to digital learning materials, enhance research capabilities, and support decentralized data access.
Update of the Institutional Website.	To ensure that the website reflects current information and acts as a transparent, single source of truth for public e-inspections.
Increase revenue streams through Research Grants, Consultancy and Industry Collaborations	To strengthen institutional sustainability by enhancing revenue generation through research grants, consultancy services, and industry collaborations.
Mobilize alumni fund for institutional development	To strategically increase alumnae fund contributions, providing sustainable financial

	support for institutional infrastructure, student scholarships, and research advancement.
To strengthen Outcome Based Education (OBE) by orienting the faculty with advanced mapping workshops.	To ensure teaching and assessment methods are aligned with clearly defined learning outcomes, utilizing automated data tracking.
Orienting Faculty on Automated Mapping and Attainment of PLOs and CLOs.	To ensure that educators effectively assess student performance and provide verifiable absolute attainment metrics.
Preparation of detailed Course Plan and digital Learning Outcomes for each course.	To provide a structured framework for teaching and assessment ready for digital verification.
Review of Action Plans for Departments, Clubs and Committees.	To ensure effective implementation and continuous quality improvement through the systematic review of action plans of departments, clubs, and committees.
Organise Faculty Development Programmes (FDP) on modern pedagogies and digital assessment tools.	To enhance teaching effectiveness and evaluation strategies by organizing FDPs on innovative pedagogies and modern assessment tools.
Preparation of 2 e-contents per course on 4 quadrant approach by faculty.	To provide high-quality, learner-centric e-content to enhance blended learning and improve students' access to comprehensive course resources.
Preparation of Academic Calendar for the academic Year to ensure seamless planning.	To ensure effective academic planning and timely execution of institutional activities through the advance preparation of the academic calendar.
Active engagement of Domain and Cultural Clubs in departments for regional development.	To foster holistic student development and address local/societal issues through disciplined engagement.
Encourage students to undertake Projects and Internships based on local needs and IKS.	To enhance their understanding of theoretical concepts and develop industry-relevant skills
Organise International Sports competitions in the institution.	To promote sportsmanship, international collaboration and the holistic development of students through competitive engagement.
Submission of Institutional Data to NIRE, AISHE, India Today, Education World and The Week – Hansa Research portals.	To provide accurate institutional information for national rankings and secure top ranks.
Continuous Feedback Analysis from various stakeholders.	To gain insights into the effectiveness of academic and administrative processes and quickly execute areas for improvement.
Institutional Student Satisfaction Survey (SSS).	To gather feedback about the educational experience and provide a comprehensive assessment to guide strategic planning.
Conduct SLOC analysis on departments and Institution	To identify institutional and departmental strengths, limitations, opportunities and challenges for informed decision-making, strategic planning and continuous quality improvement.
Conduct of regular IQAC meetings on all second day orders to track framework alignment.	To review and strategize improvements in institutional quality, ensuring academic and administrative compliance.

Release of biannual newsletter	To document and disseminate institutional achievements, academic activities, and best practices among stakeholders
Organise advanced soft skill, communication and micro-entrepreneurship training programmes for students.	To enhance students' employability, interpersonal effectiveness, and foster independent career trajectories.
Motivate students to undertake more MOOCs along with mentoring by all faculty members.	To broaden students' knowledge base and secure verifiable national certification credits.
Strengthening Alumnae engagement and tracking of employment offer letters.	To build a robust network of former students who contribute through mentorship and provide data for employment outcomes.
Encourage final year students to participate in all the placement drives.	To enhance students' employability and career readiness by encouraging active participation in placement drives.
Each faculty to publish target research papers at least one per year strictly in Scopus/ SCII/ SCIE journals.	To enhance global visibility and citation credibility of the authors and the institution.
Motivate Faculty to apply for high-value Research Projects and file Patents.	To secure external funding, intellectual property rights and shift toward innovations.
Conduct of National/International Conferences, Seminars, and Workshops towards research enhancement.	To foster research enhancement by providing a platform for knowledge exchange and collaboration.
To conduct certified third-party Air quality, Carbon, fire safety, hygiene, Soil, water, waste management, SDG, Green, Environment and Energy audits.	To assess and systematically improve the institution's sustainability and resource-conservation practices.
Hands-on training on fire safety and disaster resilience management.	To equip participants with practical skills and knowledge to prevent, respond to, and manage emergency crises effectively.
Introduction of "NO HELMET, NO ENTRY" inside the campus	To promote road safety awareness and cultivate a culture of responsible commuting among students, faculty and staff.
Observe Khadi Day	To create awareness and encourage the use of sustainable, eco-friendly products and to support the vision of self-reliance.
Organise Fitness Day	To encourage regular physical activity, enhance health awareness and promote overall physical and mental well-being among students and staff.
Organise No Phone Day	To encourage mindful use of technology, improve interpersonal communication and promote digital well-being within the campus community.
Documentation of best practices and institutional distinctiveness.	To leverage the college's unique regional or domain-specific achievements to maximize framework weightage.
